

**Practical science exam**  
**Primary 6**

**Exp ( 1 )**

**In front of you picture of different types of scales examine them and write the name of each one**

- 1-The measuring unit of mass are ----- and -----
- 2-The mass of object is constant and is not affected by -----
- 3-An object weight depends on -----, ----- and -----

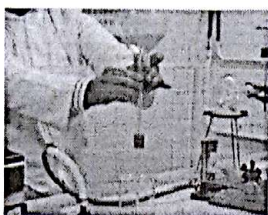

*Type of scales:*

1 - -----

3 - -----

2 - -----

4 - -----

**Practical science exam**  
**Primary 6**

**Exp ( 2 )**

**In front of you some materials examine them and classify them into Heat conductors and heat insulators**

**( Iron – Aluminum – Wood – Plastic – Copper – Wool – Stainless steel – Rubber)**

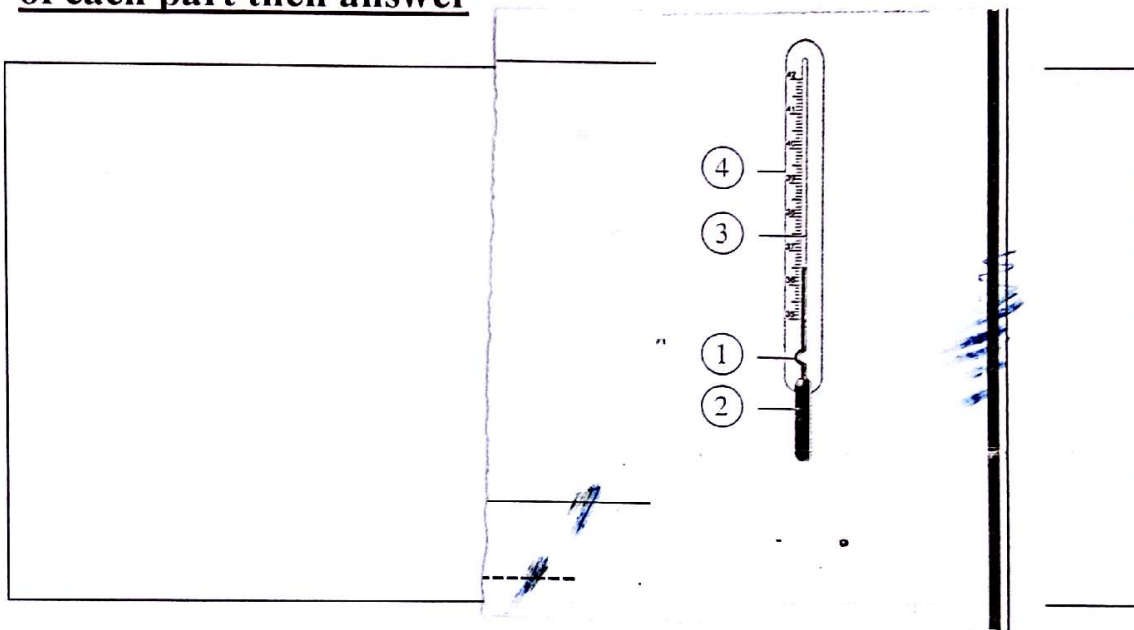

<b>Heat conductor</b>	<b>Heat insulators</b>

**Practical science exam**  
**Primary 6**

**Exp ( 3 )**

**In front of you a thermometer examine and write the name of each part then answer**

- 1-This thermometer used to measure -----
- 2-It is graduated from ----- to -----
- 3-The liquid used in it is -----

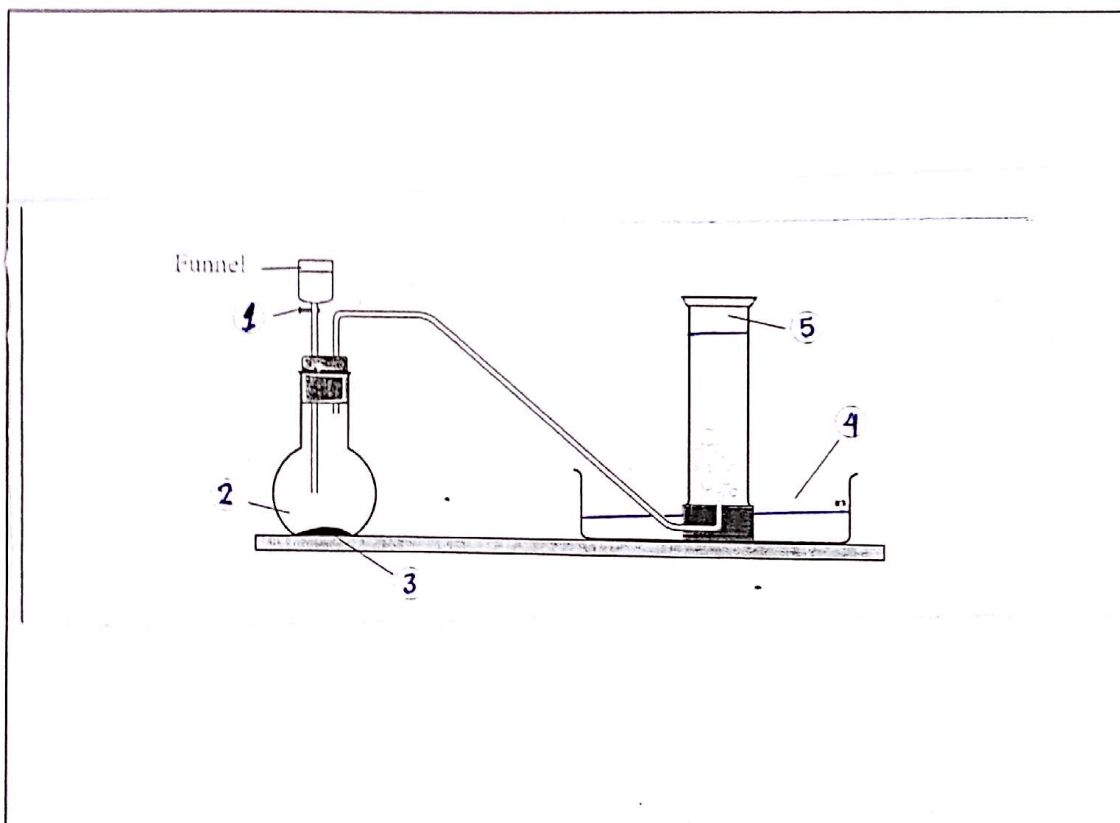

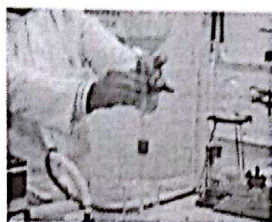

**Practical science exam**  
**Primary 6**

**Exp ( 4 )**

**In front of you picture for preparing gas in lab examine**  
**and write the name of each part then answer**

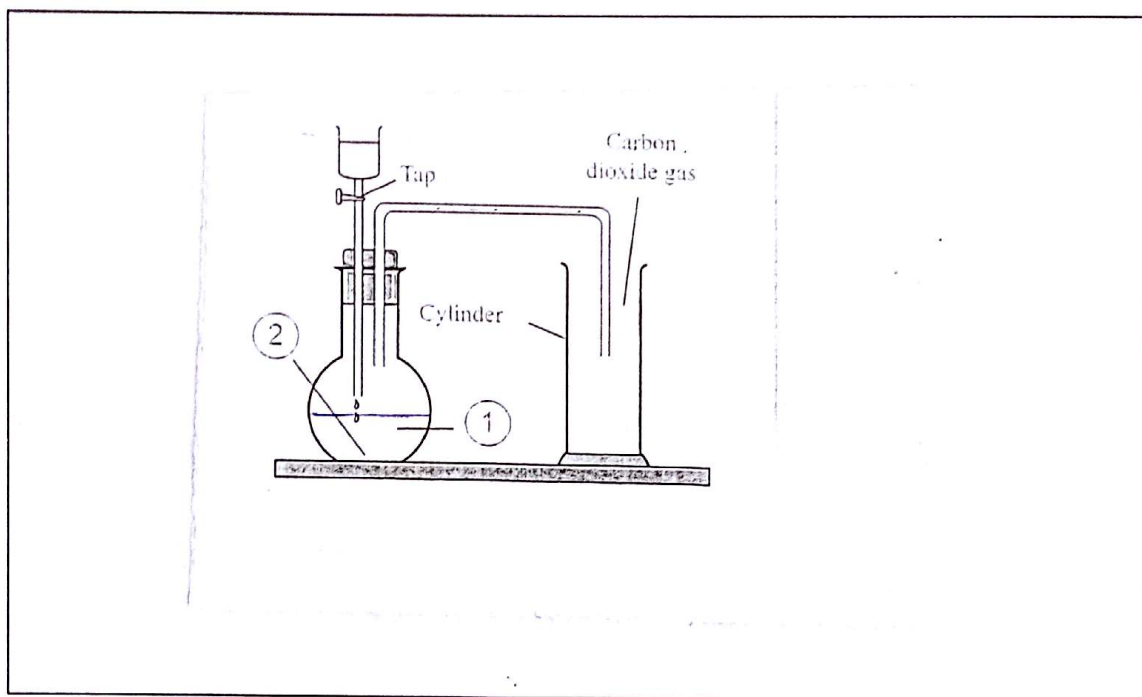

- 1-This gas occupies ----- % of air volume  
 2-This gas prepared from decomposition of -----  
 in the presence of ----- as catalyst  
 3-This gas used in ----- and -----

**Practical science exam**  
**Primary 6**

**Exp ( 5 )**

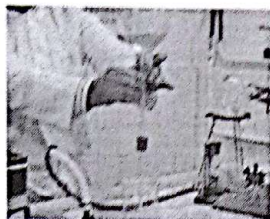

**In front of you picture for preparing gas in lab examine**  
**and write the name of each part then answer**

1-This gas occupies ----- % of air volume

2-This gas prepared by adding -----  
to-----

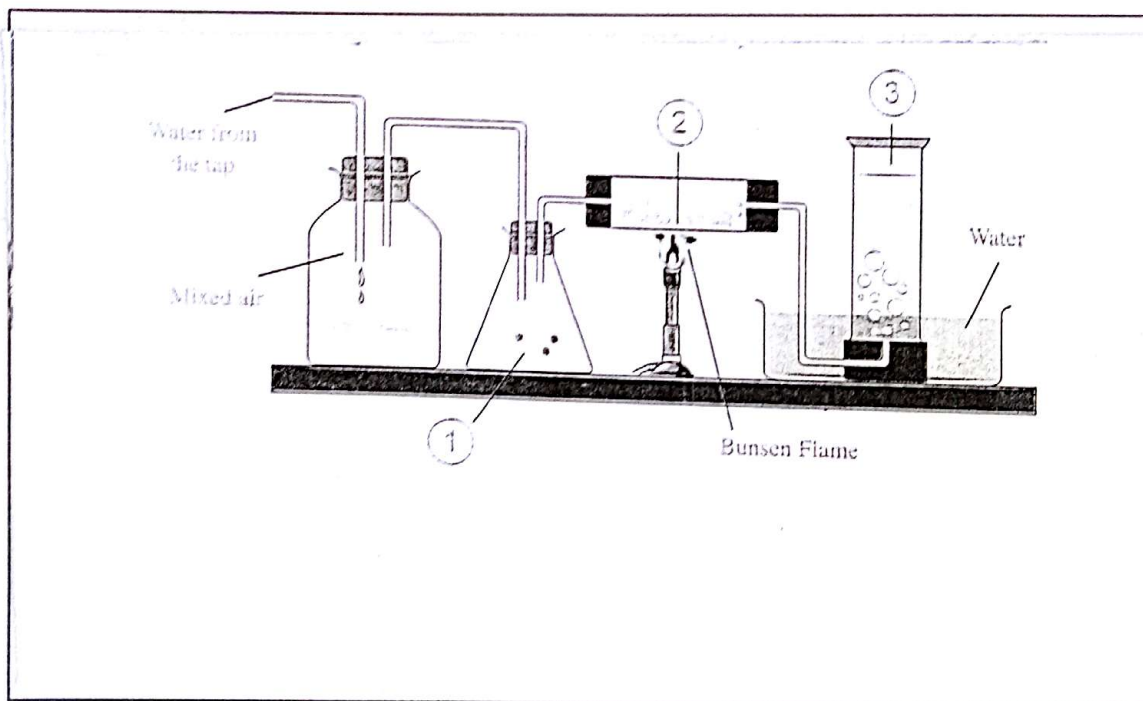

3-This gas used in ----- and -----

**Practical science exam  
Primary 6**

**Exp ( 6 )**

**In front of you picture for preparing gas in lab examine  
and write the name of each part then answer**

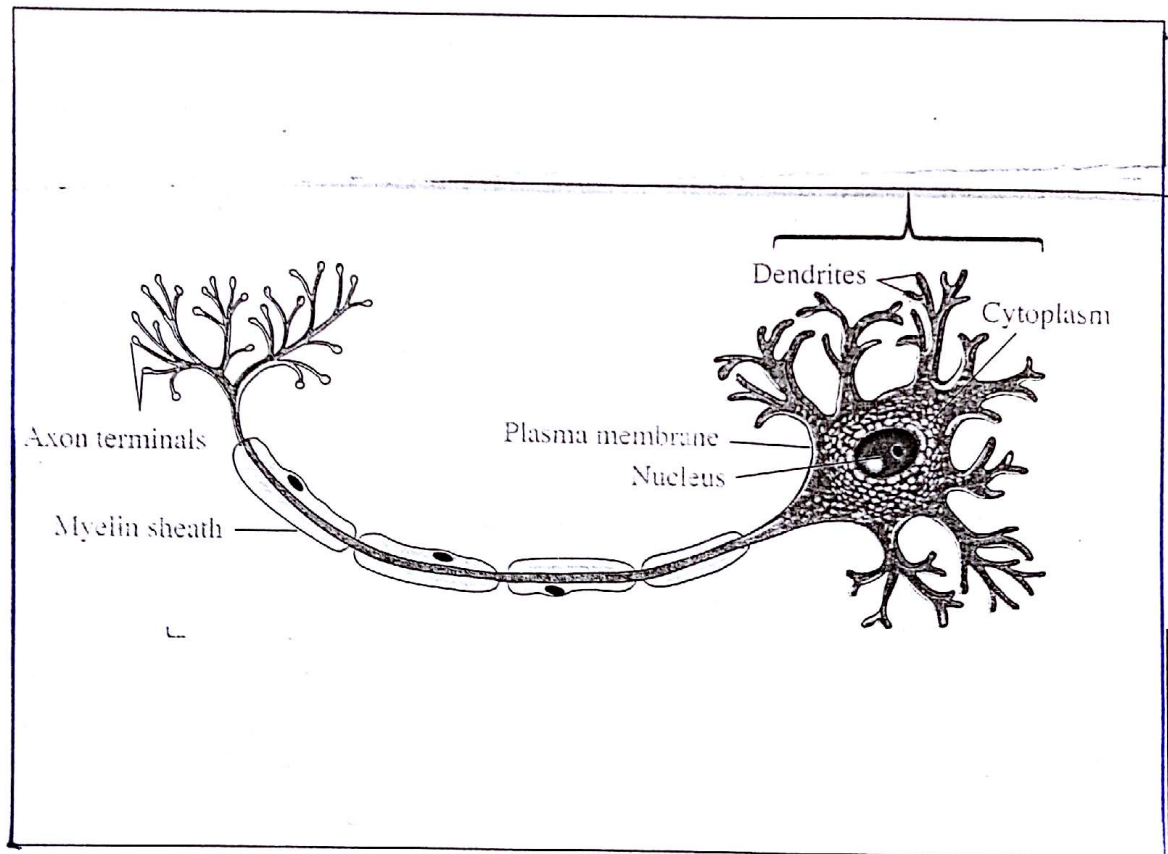

- 1-This gas occupies ----- % of air volume
- 2-This gas prepared in the laboratory from the -----  
by the removal of both ----- and -----  
then nitrogen gas is collected
- 3-This gas used in ----- and -----

Practical science exam  
Primary 6

Exp ( 7 )

In front of you picture for a part of human body examine  
and write the name of each part then answer

- 1-The human nervous system consists of -----  
and -----
- 2-The brain consists of ----- , -----  
and -----
